

# Keep Your Office Open: Offer Telehealth Services

Connecting Site Visitors With The Right Person, Right Now

## Option #1 – Share Your Personal Link

### Fits

- This is a simple solution for when you want to visit directly with your patient, one-on-one in your OnSIP Room.
- This is a consistent solution where you can share and use the same link every time.

### Tips

- This link will also allow your patients to call you at anytime.
- Make sure you set up appointments and ask them to stick to it.
- Require they phone in all urgent requests and to video call them in.

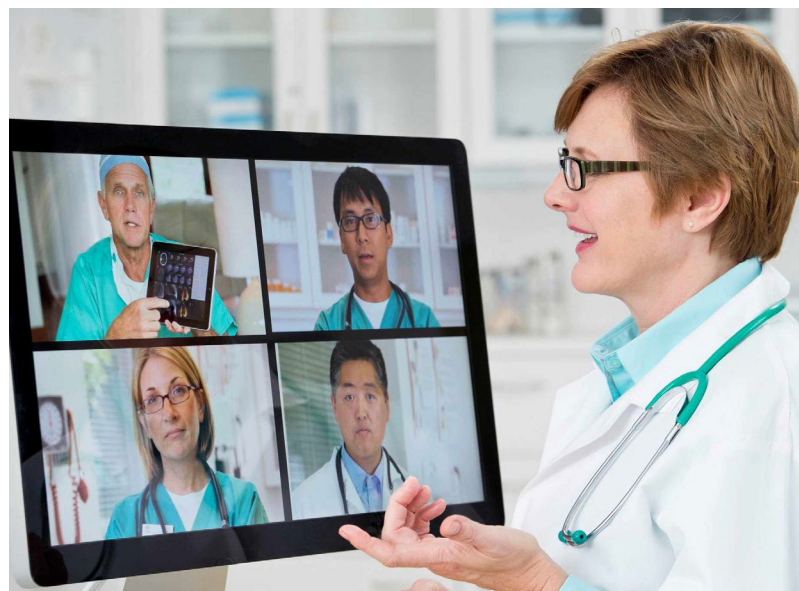

## Option #2 – Share a Link to a Consistently Used OnSIP Room

### Fits

- This is also a simple and consistent solution and not a direct line to the doctor.
- If the patient enters the room and the doctor isn't there, the doctor won't be disturbed.
- This allows for a single patient or multiple participants video conference in your OnSIP Room.

### Tips

- Keep in mind that anyone can join your OnSIP Room at anytime.
- Make sure you set up appointments and ask them to stick to it
- You'll remain HIPAA compliant without violating patient privacy so please enforce to phone in all urgent requests.

## Option #3 – Create Links to Unique OnSIP Rooms

### Fits

- This is also a simple and consistent solution while not being a direct line to the doctor.
- This option prevents patients from entering the OnSIP Room, should a doctor be on a video call with another patient.
- This option allows for a single or multiple participants to join.

### Tips

- Remember to schedule your video call ahead of time so the patient will know you're available to them.
- Choose an OnSIP Room name unique to that patient for easy scheduling by a receptionist.
